SOP-014 Cold-Chain Storage v3 - Page 1

Section 1. Purpose and Storage Temperature Requirements:

Vaccine batches must be stored at 2 to 8 °C.

All cold rooms and reach-in freezers must maintain active temperature recording systems verified daily by Arjun Menon.

SOP-014 Cold-Chain Storage v3 - Page 2

Section 2. Deviation Escalation Protocol:

Any temperature excursion longer than 4 hours requires a deviation report.

Priya Rao, QA Lead, owns deviation management and must be informed of cold-chain excursions immediately.
